

FRAUDULENT/COUNTERFEIT ELECTRONICS PARTS POLICY STATEMENT:

Pickering Interfaces Limited
Stephenson Road
Gorse Lane Industrial Estate
Clacton-on-Sea
Essex
C015 4NL

Pickering Interfaces understands and appreciates the ever-growing concern to the significant and increasing volume of fraudulent/counterfeit electronic parts entering the supply chain. These parts pose a significant performance, reliability, and safety risk.

In order to counter these parts, Pickering Interfaces has established requirements and practices to mitigate the risk of buying, receiving, and selling these parts, including,

1/ Pickering Interfaces are a quality driven organisation and maintain certification to the international ISO 9001: standard. Our registration number is FM38792.

2/ Pickering Interfaces Ltd recognises the importance of having a secure supply chain with respect to site security and the handling of goods. We are certified as an "Authorised Economic Operator" and our registration number is GB AEO F/00128/18.

3/ Pickering Interfaces fully own and control their manufacturing sites and processes; as such have full control of all components entering the production environment.

4/ Pickering Interfaces maintain an active list of approved suppliers, these include authorized franchised suppliers, Original Component Manufacturers (OCM) and accredited independent distributors. Pickering look for suppliers who hold an AS 6081 certification.

5/ Pickering Interfaces products are only available through fully owned sales channels and authorised representatives.

OUR COMMITMENT:

Do not knowingly procure fraudulent/counterfeit materials.

Ask our suppliers to undertake reasonable due diligence with their supply chains to assure only genuine materials are purchased.

If we discover fraudulent/counterfeit materials, we will take appropriate actions to remove from the supply chain.
